TUESDAY MORNING, MAY 22, 1860. FIRE INSURANCE NOTICES, &c. ALEXANDRIA AGENCY

NORTHERN ASSURANCE COMP'Y., LONDON. HEAD OFFICE FOR THE UNITED STATES, No. 37 South Third Street, Philadelphia.

Paid up Capital and Surplus...... 2,194,111 02 SECURITY TO POLICY HOLDERS. HIS old and responsible Company insures

. against loss or damage by Fire, almost every description of property, and offers to Merchants and others desiring insurance, the security of an actual Capital of \$6,298,800, for the whole of which, and for any liabilities beyond, the Shareholders are INDIVIDUALLY RESPONSIBLE, even to the extent of their entire fortunes. The Shareholders number about one thousand, and as a large portion of these are persons of great wealth, the most ample | use of dangerous remedies, by John Stainback provisions exist for meeting every possible claim against the Company. SUBJECT TO THE LAWS OF THE UNITED

STATES. In appointing an Agent for the United States, the Company has empowered him "to appear to and accept any action or legal proceedings instituted against or by said Company, in the same manner as if the Company were a Corporation or Company established by the laws of the United States, or any of the several States." PROVISION FOR PAYMENT OF LOSSES IN

THE UNITED STATES. A SPECIAL PERMANENT FUND HAS BEEN PLACED AT THE DISPOSAL OF THE AGENT AT PHILADELPHIA. TO ENABLE HIM TO ADJUST AND PROMPTLY PAY ALL

Losses, WITHOUT REFERENCE TO LONDON. LIBERAL TO THE INSURED. The uniform course of the Company has always been a liberal one towards Policy Holders. No just claim has ever been disputed, and prompt payment of losses is a standing rule. During the past year, losses exceeding \$525,000 were paid. Losses paid as soon as the amount is ascertained.

ANNUAL INCOME. The Income of the Company is now about \$1,-000,000, increasing gradually each year, showing that it has the confidence of the different communities in which business is done. RATE OF PREMIUM.

The Rate of Premium will be moderate, and in all cases will be based upon the character of the owner or occupant, and the merits of the risk. The conditions of Insurance are framed with the greatest liberality.

JAMES T. CLOSE, Agent.

COMPANY, ALEXANDRIA, VIRGINIA. CAPITAL OVER 350,000 DOLLARS,

AND CONSTANTLY INCREASING. The Charter of this Company offers more favorable advantages to the farmer and others, than any Company chartered in the State, by insuring with or without a premium note. If the applicant I INSEED OIL, White Lead, pure French Zinc, and Paints and Oils of every description, prefer, he can pay the full amount of the premium which we are prepared to sell at the very lowest in eash, or by effecting a cash insurance for two years, the insured saves one-eighth of the amount he would otherwise have to pay; or by becoming member, and giving a small premium note, the insured saves nearly one-half of the amount charged by Stock Companies, when insuring from year to year. This is the advantage resulting from the combination of the

CASH AND MUTUAL PRINCIPLE. This Company commenced issuing Policies against loss or damage by fire, on the 13th day of March, 1854, since which time over seven thousand seven hundred persons have insured and become members of the Company, and over seventy thousand dollars have been paid for losses. Having increased our business during the past year, we feel grateful for the liberal patronage bestowed upon the Company thus far, and for its flattering prospects of future usefulness. The Directors hope and believe, that, by prudence, caution, and a rigid system of economy, they will establish for this Company a reputation for cheapness and safety not surpassed by any Company in the U. States. All differences in settlement of losses, may be

determined by three disinterested arbitrators of the County where such loss happened, to be mutually chosen by the insured and the Company. DIRECTORS: James T. Close. H. W. Thomas, Thomas T. Hill. T. B. Robertson,

MISCELLANEOUS READING

MARVELOUS PHENOMENON. - The Russian correspondent of the London Telegraph writes

At Moscow, a physical phenomenon has been recently observed, such as would have given rise to the creation of a whole cycle of fantastic myths in the time of the world's infancy. We learn from a paragraph in the leading paper of that city, that a quarter past ten, on the night of the 1st and 2d of March, a star to the Southwest of the Great Bear, suddenly commenced to wax larger, assuming at the same time, the color of iron at a red heat, but without the appearance of any sparks or rays. In this condition the star appeared until half past 11, varying in the intensity of its light, and attaining the size nearly of the half-moon. A little before midnight the dimness began to increase, and at 12 o'clock the star had disappeared. In its stead a sort of black speck was to be noticed by the light of the stars, which were unusually brilliant that evening. It remains for the astronomers to describe, and the poets to sing, of the destruction of the luminary, which for ought we know, may have been the abode of a race superior to our own.

Mrs. Jane Elizabeth Jones, one of the speakers at the recent Woman's Rights Convention in New York, was somewhat severe upon the masculines who flourish in the

atmosphere of millinery stores. Hear her. "The other day she saw a man milliner holding up a bonnet on his soft hands and expatiating on its merits. A lady tried it on and he went into ecatacies, it was such a fit and so becoming! He complimented the bonnet and then he complimented the lady. She could but think this man was out of his sphere, and had crowded some woman out of her sphere. In a shoe store, instead of a sprightly girl to try on woman's gai-ters, you find a strong man, who tries it, and fusses over the gaiter and over the foot until the lady is almost tempted to propel him into his true sphere. [Laughter] When and where was it discovered that God made man to fit ladies' gaiters? [Laughter."]
